What is Rashan Ki Dukan?

Rashan Ki Dukan is a powerful, modern Point of Sale (POS) system designed for retail businesses of all sizes. Built on Laravel 11 with MySQL, it provides complete business management from inventory to accounting, with offline POS capability, multi-outlet support, and 35+ detailed reports.

Technology Stack

Laravel 11 MySQL 8 PHP 8.2 Bootstrap 5 jQuery IndexedDB (Offline) PWA Support mPDF (Invoice) ESC/POS (Thermal Printer) Razorpay Gateway Spatie Permissions Ziggy (Routes) ZATCA (E-Invoicing) WhatsApp API Email/SMTP SMS Gateway

Architecture

- **Modular Structure** - 7 independent modules
- **Role-Based Access** - Granular permissions per feature
- **REST API Ready** - JSON responses for all operations
- **Offline-First POS** - IndexedDB + auto sync
- **Multi-Outlet** - Manage multiple store locations
- **Session-Based Auth** - Outlet + Company per session
- **Blade Templates** - Server-side rendered views
- **Docker Ready** - Pre-configured containers

POINT OF SALE (POS)

Touch-Friendly POS Interface

Modern, responsive POS screen with product grid, search, category filter, and cart management. Works on desktop, tablet, and mobile.

Barcode Scanner Support

Plug-and-play barcode scanner support. Scan products directly into cart. Manual barcode entry also available.

Hold & Resume Bills

Hold current sale and start new one. Resume held bills later. Multiple bills can be held simultaneously.

Quick Product Search

Search by name, barcode, SKU. Filter by category, brand. Real-time stock display on each product card.

Multiple Payment Methods

Cash, Card, UPI, Bank Transfer, Cheque, Wallet. Split payment across multiple methods in single transaction.

Offline POS Mode

Works without internet! Sales saved to browser IndexedDB. Auto-sync when connection restored. Never lose a sale.

Tax & Discount Engine

Per-item tax, cart-level tax, percentage or fixed discounts. GST/VAT support. Exclusive & Inclusive tax modes.

Invoice Printing

Thermal printer (ESC/POS), A4/A5 PDF invoices via mPDF. Customizable invoice templates with business branding.

Additional POS Features

- **Combo Products** - Bundle items sold as single unit
- **Promotions Engine** - Buy X Get Y, flat discounts
- **Customer Selection** - Link sales to customers
- **Item Seller Tracking** - Track which employee sold what
- **Gift Card / Coupon Ready**
- **Due Amount Management** - Track partial payments
- **Delivery Partner Assignment**
- **Register Management** - Open/Close cash register
- **Denomination Counting** - End-of-day cash count
- **Repeat Last Sale** - Quick re-print

INVENTORY & STOCK MANAGEMENT

Product Management

Add products with name, SKU, barcode, images, category, brand, unit, variations (size/color), purchase & sale price, tax, warranty info.

Item Variations

Define attributes (Color, Size, Material) and create product variations. Each variation has its own stock, price, and barcode.

Bulk Import / Export

Import thousands of products via Excel (CSV). Bulk update prices. Export product list. Opening stock import with IMEI/Serial.

Stock Management

Real-time stock levels per outlet. Low stock alerts. Stock adjustment. Damage tracking. Stock transfer between outlets.

Multi-Outlet Stock

Track stock separately for each outlet. Inter-outlet transfer with approval. Centralized stock view across all outlets.

Purchase Management

Create purchase orders, receive stock, track purchase payments. Purchase return handling. Supplier ledger management.

Damage Management

Record damaged/expired items. Remove from stock automatically. Damage reports with reasons and dates.

Price History

Track all price changes over time. View purchase price history. Sale price history. Cost analysis reports.

Product Configuration

- **Categories** - Hierarchical product categories
- **Brands** - Brand management with logos
- **Units** - Kg, Piece, Box, Liter, etc.
- **Racks** - Physical shelf/rack location tracking
- **HSN/SAC Codes** - For GST compliance
- **Medicine expiry tracking** - For pharmacy businesses
- **IMEI/Serial Number** - For electronics
- **Product Images** - Multiple image upload
- **Opening Stock** - Set initial quantities
- **Fixed Asset Management** - Non-saleable assets

SALES & CUSTOMER MANAGEMENT

Complete Sale Lifecycle

Create, view, edit, print, and void sales. Full audit trail. Sale returns with stock restoration. Duplicate invoice detection.

Quotation / Estimate

Create professional quotations. Convert quotation to sale with one click. Track quotation status (sent, accepted, rejected).
